

*Fearless Martha* – 1780 South Carolina Map

This map may be found on the web site “South Carolina Information Highway.” There might be another one you may prefer to use.

There are many places on this map that are named the same as today, but others are not. Ask the students to compare this older South Carolina map to one of today and note the differences. A curiosity to them might be the word choice in the legend where our state is called a province.
